The Stakeholder Liaison field office of the Internal Revenue Service and the Taxpayer Education and Assistance office of the Employment Development Department began pooling resources in its employment tax outreach efforts in 2001. The overall objective of this collaboration was to better educate the Small Business Self-Employed taxpayers in the area of employment taxes by creating a "one-stop" approach to employment tax outreach. In the past four years, we have reached over **15,000** California businesses and independent contractors providing them payroll and employment tax instruction.

To achieve this success we have:

- Developed PowerPoint Presentations
- Created a "Practical (and comprehensive) Example" to aid the understanding and application of Fed and State payroll taxes
- Developed industry specific materials for the construction and cosmetology communities
- Developed the Employment Status Course, a highly interactive course to explain statutory and common law employment as it is applied by EDD and the Internal Revenue Service (IRS).

While this collaboration has been very successful, realities have presented themselves prompting retooling of the existing outreach model. We need qualified and motivated presenters to help educate the public.

Therefore, we are asking you to join us in this educational quest. The IRS will provide technical training and resource materials to those presenters that wish to volunteer to be a part of our instructor cadre. We are excited about the possibility of partnering with you to serve the small business and self-employed community.
